

WorldClinic is a unique medical practice caring for executives and high net worth families whose lifestyle requires immediate access to a personal doctor for any health issue, at any hour, from anywhere in the world.

WorldClinic services include a 24/7 personal doctor, comprehensive health planning, medical provisioning for travel and home, disaster medical planning, a 24/7 electronic medical record archive, and physician-to-physician second opinion referrals for serious or complex illness.

The scope of our physician practice includes routine advice, emergency guided care, disease research and treatment option planning and the creation of a medical infrastructure to maximize the outcome of any health event.

Like wealth, good health is a result of mitigating risk and making the investment to maximize your return on investment: number of days alive and the quality of those days. By engaging WorldClinic, you acquire not only an attentive and caring doctor, but a powerful risk management tool to maximize your return on investment.
